

Picis Envision

Plug into your hospital's vitals

On a computer or on the go

1 Automated analytics
 Connected directly to your database to provide you an up to date view of your performance

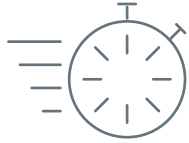

2 Customized builds by us, for you
 We prepare the dashboards with your requirements so you can focus your time on your hospital and patients

3 Near real-time operational analysis
 Data is never more than 10 hours old—we connect directly to your database pulling data during off peak hours

4 Highly intuitive and easy to use
 No time consuming training required

5 Quick platform implementation
 Developed and ready to use in as little as 45 days

The Envision Benefits

Improve efficiency to drive revenue

Decrease costs to secure margins

Mitigate risk and improve quality

Impact process and performance

Focus in on a key area impacting your same day cancellations. See a monthly view or drill down to the specific reason for cancellation and surgery.

Total number of cancelled surgeries by month

Drill down to the specific surgeon with listed cancellations

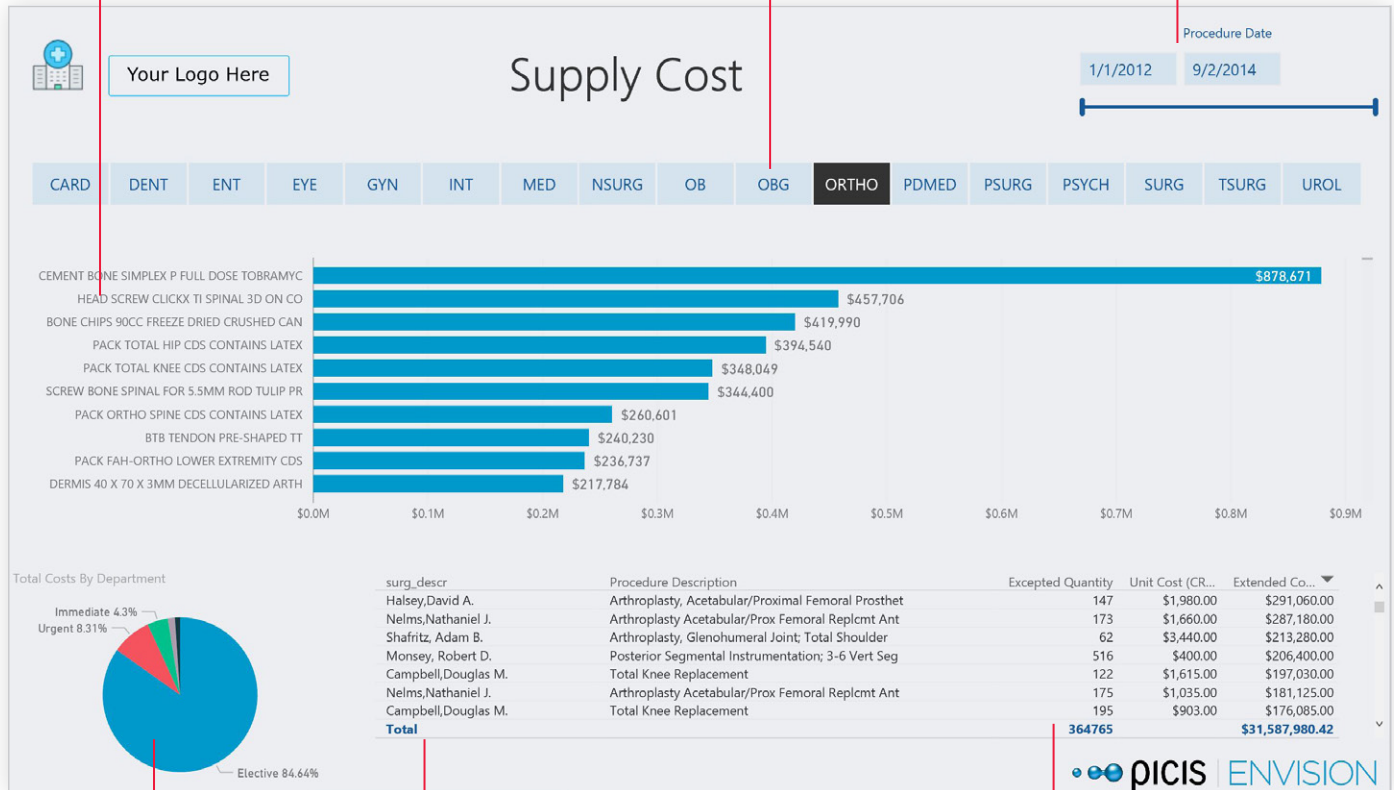

Drill down to the reasons for cancellation

Identify areas where money could be saved on overall supply costs. See current cost by supply, surgeon or department.

Identify cost by individual supplies

Drill down for details on supply cost by department

Establish procedure date range

Visualize costs by surgery department type

Drill down on cost by surgeon and procedure

Forecast expected usage to prepare accurate supply orders

100 Quannapowitt Parkway, Suite 405, Wakefield, MA 01880
